

GIRL SCOUTS ENGINEERS WEEK

Saturday
February 26, 2022
from 9 am- 3 pm

Macomb Community College
MTEC Campus
Warren, Michigan

at Macomb Community College

The Center for Advanced Automotive Technology (CAAT) is hosting a fun and educational day with 2 technology activities for 80 Girl Scouts in 5th through 9th grades.

the **TI-INNOVATOR ROVER ROBOTIC VEHICLE**
with Texas Instruments

Girl Scouts will experiment with coding and the TI-Innovator™ Rover robotic vehicle while earning a driver's license. The challenge includes parallel parking, Watch Out for Rover the dog and navigating a series of mazes. Girls will be writing their own programs within 10-minutes of the session.

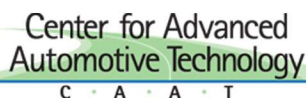

the **DREAM WITH ROBOTS CHALLENGE**,
with Macomb Community College's CAAT staff

The girl scouts will design, build and code a UBTech robot. Advanced and intermediate kits will be available for different age groups to discover what makes engineering both interesting and so much fun! At the end of the session, groups will present their project to demonstrate what their invention was programmed to do.

The event includes lunch and all the supplies needed and is part of the CAAT's annual **ENGINEERS WEEK CELEBRATION**.
